Who we are ?

MMS is one of most trusted AV and Broadcast systems integrator, providing the technology and services that improve the way individuals, organizations, and businesses collaborate.

MMS provides audiovisual and broadcast services – including system design, installation, programming, and support – with a focus on being a committed partner to all parties involved.

Who we are ?

we focus relentlessly on being partners to everyone in the value chain – from architects and design consultants to IT and Facilities decision makers and end users

We place training and development at the center of our business so that our team of Engineers, Installation Technicians, Programmers, Project Managers and Service personnel are all able to help you achieve your goals.
